The UK Hot Tub Buyer's Guide

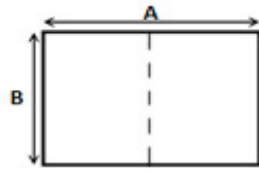

How to Measure for a Replacement Hot Tub Cover

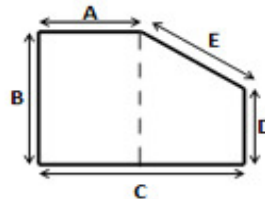

1. Select the shape of your cover from the diagram below:

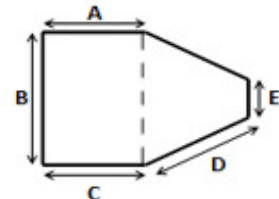

**Rounded
Square / Rectangle**

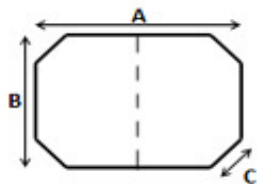

Square / Rectangle

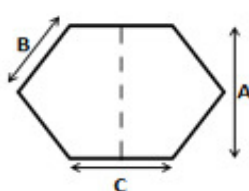

One Cut Corner

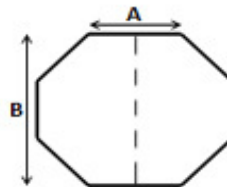

Two Cut Corners

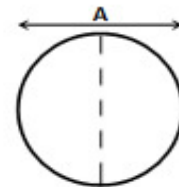

Cut Corners

Hexagon

Octagon

Round

Enter Shape:

What Spa?

The UK Hot Tub Buyer's Guide

2. Measure the dimensions of your cover in inches:

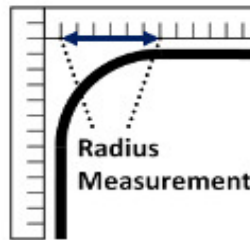

If you do not have an existing cover to measure from, then you must measure all the outside dimensions of your hot tub. Refer the diagram above to see which dimensions to enter for the lengths **A**, **B**, **C**, **D** and **E** (not all measurements are required for every shape).

Width (**A**) = inches
Length (**B**) = inches
Length (**C**) = inches
Length (**D**) = inches
Length (**E**) = inches

3. Measure the dimensions of the corner radius:

How to measure the radius of corners

Using 2 rulers, extend two imaginary lines from the break in the curve of the spa (point X) until they meet at an imaginary point Y. Determine the measurement from point X to point Y. This will be the radius of your corner.

Length (**XY**) = inches

4. Measure the cover skirt length and strap length:

The skirt is the flap that hangs from the bottom of your cover. Measure from the crease at the top of the skirt to its bottom edge. To measure the strap length measure from the **top** of the skirt to the top of the cover clip. Don't include the clip itself.

Skirt Length = inches

Strap Length = inches

The UK Hot Tub Buyer's Guide

5. Measure the strap position (if you want them in a specific position):

The straps will be positioned on the sides that are parallel to the hinge/fold. We position them as standard 1/4 of the way in from each outside edge of the cover unless you specify otherwise. If you want them positioned elsewhere complete the box below:

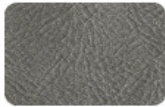

Strap Position = inches from outer edge of cover

6. Choose your cover colour from the choice below:

Black

Grey

Dark Brown

Briar

Oxblood

Spice

Tan

Burgundy

Dark Beige

Light Beige

Emerald

Sky Blue

Cover Colour =
